Vaccine Updates

Miami-Dade County's first federal vaccination site at Miami Dade College North Campus is now open seven days a week from 7 a.m. to 7 p.m. Walk-ins are accepted, appointments are not required. This site will vaccinate eligible individuals and can vaccinate individuals deemed extremely vulnerable to COVID-19 by a physician. Individuals will need to present a signed physician's certification form.

Only Florida residents and snowbirds can get the vaccine but there is no county residency requirement in place. This means if you live in Miami-Dade, you can get the vaccine in Broward or vice versa. You will need to show [proof of Florida residency](#). For snowbirds or part-time residents, the proof needs to be in the [form of two documents](#) like a lease agreement and a utility bill no more than two months old, according to the Florida Division of Emergency Management. To pre-register with the County, visit <http://miamidade.gov/vaccine> or call 305-614-2014.

Anyone else who lives in another state or country can no longer get the vaccine in Florida. Non-residents who have already received the vaccine in Florida will still be able to get the second dose.

Per the Governor's Order suspending all fines and penalties applied to individuals for violating the County's COVID-19 public health orders, Miami-Dade County will continue to issue civil citations for individuals not wearing masks and will process fines and penalties, and collect on these fines when the State Order expires and allows the County to do so.
